

## Zip Dobyns Astrology Audio Teaching Videos

<https://www.youtube.com/playlist?list=PLgK8FIC-dBq8JUZRS6Q796PkYyI4nAhj9>

In November- late December 2015 I finally got around to digitizing my old collection of Zip Dobyns cassette audio tapes that I recorded from 1978 thru January 2003 (Zip passed away June 7, 2003). I then created videos via Windows Movie Maker and subsequently uploaded the 108 edited digital audio-videos into an Unlisted YouTube Playlist. The Playlist link provides all 108 audio-visuals of the teaching presentations.

I would like to offer these audio teachings to serious students of Zip's method of astrology. I already for many years included four audio-only presentations on my Film Score Rundowns site in the "Other" back-page (plus written lectures). But it was only until recently (since being retired) that I had the time and the motivation to digitize my entire Zip collection of cassette tapes. If I had let the aging cassette tapes to go unattended, then they would eventually deteriorate beyond repair.

Zip originally ok'd verbally the offering of my transcripts & audio presentations of her lectures & private sessions back in I believe 2000 when my wife & I visited her in Jamul, CA for a paid session. We visited her often until January 2003 on a paid special basis because I wanted to discuss serious astrology with her, especially tied to the asteroids, celebrities/politicians, and of course our own personal charts.

Of course there is nothing personal in there tied to names (except for public people like politicians and others of public notoriety, including murderers such as Jim Jones) that Zip often discussed in public lectures. The private sessions of mine (my own chart & my wife's) are ok since there's nothing really personal there in the edited material, just useful information of interest to astrologers trying to understand how Zip reached conclusions.

I am pleased to share this material with serious students since it is quite unique, unavailable anywhere else, and it would be great for people to "hear" Zip on audio. She was a gifted speaker, I felt, with a terrific voice. I enjoyed her speaking (Gemini) style more than her writing (Virgo) style, as she might put it. I thought I would keep the flame or torch going, so to speak, regarding the Zip Material (since she was the best astrology teacher and was my friend) and always had it in my mind to do this digitization project. My goal or hope is that this educational material would eventually benefit others who want to learn from the best.

Thank you!

*Discover the boundless potential with which you were born, the assets you brought with you, according to the philosophy of this internationally recognized clinical psychologist-astrologer, who uses the combination of modern psychology and the ancient art of astrology for psychological, marital and spiritual counselling.*

- Does astrology have a scientific basis?
- Are past lives indicated in a natal chart?
- Can a comparison of a couple's birth charts indicate their potential for a successful lifetime relationship?
- Is an astrological chart a valid tool for the spiritual seeker?

*These and many other questions will be answered during this program.*

**Dr. Zipporah Pottenger Dobyns**

Zipporah Pottenger Dobyns received her B.A. in anthropology (Phi Beta Kappa) and her Ph.D. in clinical psychology. She has spent over 18 years working in the fields of humanistic psychology, parapsychology and astrology, seeking to integrate their respective insights into the nature of man in order to facilitate self-actualization and growth through self-knowledge. Her experience includes work in hospitals and clinics for the emotionally disturbed and over ten years of personal counseling as an ordained minister, in addition to research, writing, lecturing, and teaching. Her unique workshops combining the techniques of astrology and humanistic psychotherapy have been conducted in areas ranging from New Hampshire, Connecticut, and New York to numerous centers in California. Her writings are known internationally and her tape programs and correspondence courses in astrology are available from TIA Publications. (See address below.)

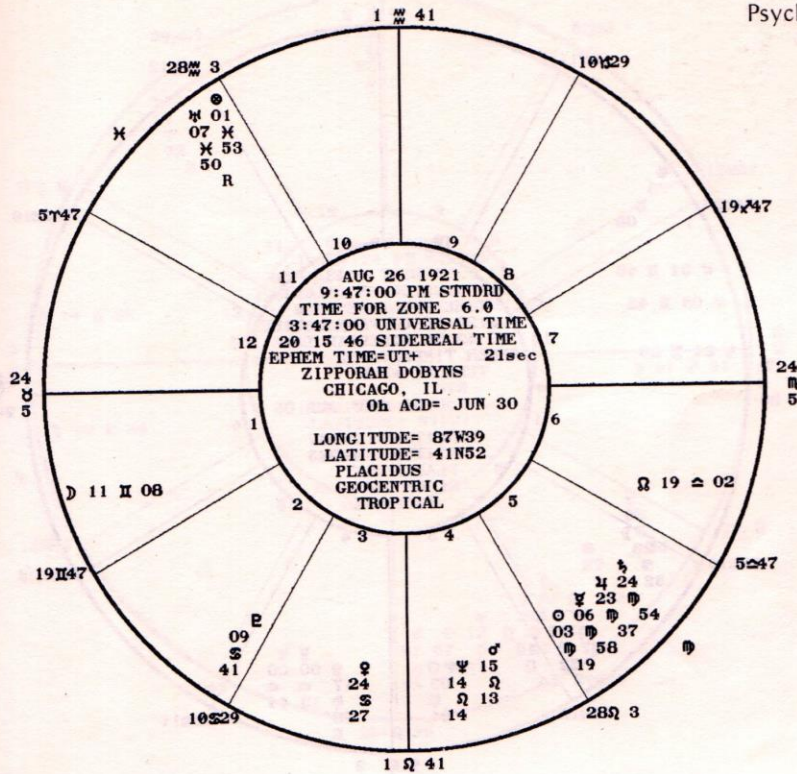

ZIPPORAH DOBYNS  
Psychologist, astrologer

August 26, 1921

Dr. Zipporah Dobyns is not only well known in the astrological community for world-wide teaching, workshops and lectures, but she counsels a clientele that numbers up to a thousand persons a year. With Moon in curious Gemini in the 1st house, the need to know "how people tick" is expressed through the nurturing quality of "how to help them tick better." Mars conjunct Neptune in a "foundation" house inclines Dobyns' interests toward research on aberrative areas; as well as the Virgo quality of practical, down-to-earth counseling of people on the creative function of purposeful problem solving.

Dobyns' own work is based on a firm, solid foundation from which to expand and enlarge (Jupiter conjunct Saturn in Virgo). Her B.A. in anthropology was followed in 1969 by a Ph.D. in psychology. With an academic background, Dobyns is equipped as an articulate spokeswoman for astrology to write for the American Academy of Psychotherapists, and the Journal of the International Academy of Preventive Medicine.

The best known of Dobyns' ten booklets is probably *Finding the Person in the Horoscope*, though her *Node Book* and *Asteroid Ephemeris* are considered by many to be indispensable. The strong, creative 5th house is further exemplified by the four capable, intelligent children of whom Dobyns is justifiably proud.
